## CULTURE

We're a boutique group of experienced disruptors, innovators and trail blazers bringing a new point of view to a stale and tired space. It's accounting, just not how it used to be.

We've dropped the old suit mentality and we're busting down the old accounting door and ushering in a new modern era... and while we're at it, we plan to have a bunch of fun along the way. Our equal opportunity recruitment policy and vibrant work environment provide the cherry on top of our lovely Naked cake!

# WORK WITH NAKED

## WHAT WE DO.

We strip back our client's business to the bare nuts and bolts and go where not every accountant is willing to go.

We provide a full spectrum of accounting and advisory services for small and medium businesses, including tax compliance, succession planning, risk protection, cash flow management, business planning and coaching, financial forecasts and projections, budgeting, valuations, debt management and much more.

Improve their lifestyle; and enjoy a sense of security that comes from knowing they have access to knowledge usually reserved for corporate companies.

Like we said... we go deeper.

## **FRIENDS WITH BENEFITS.**

(We are Naked after all)

We're not just a hand-over-your-pay-check-and-be-done-with-it type of employer. We believe in investing in our team and giving them opportunities to grow inside and outside the business.

We know that happy people make for happy employees, and happy employees are productive... so we offer flexible work arrangements that promote a healthy work-life balance. We start off with above industry wages, then work alongside you to provide professional development opportunities not often seen in other firms. Like we said... benefits!

There are various types of Naked benefits available to employees, depending on the type of role. Examples of these include:

## **SIGN-ON BONUS**

Sign-on bonuses are available for all new team members, just not for those joining us via a recruitment agency. So, you might want to consider applying directly. Now that's not something you see every day!

## **BONUS STRUCTURE**

A quarterly incentive plan, with bonuses available to most team members. Bonuses are calculated using company revenue and individual KPI achievements being reached. The better we (all) perform, the better we all do!

## **EQUITY PLAN**

Shares are available for all team members. Not everyone can say there's an opportunity to become a shareholder in the company you are working for!

## **MENTAL WELLNESS**

Monthly wellness program provided onsite, including massages, and hair and beauty treatments.

**But we did tell you! It's an accounting career,  
but just not how it used to be.**
